Alone In her thoughts, Techn Alexander sits trangull moments such as these will have to be quietly in the quad reflecting over a class assignment. Soon the trees will be bare and

postponed for a while

At UTM this year

Several fellowships offered political science in cooperation with the department of elementary and

By BARRY WARBRITTON News Editor

The numerous fellowships available at UTM provide a means of easing the crunch on students' purses as they the student lucky enough to receive a fellowship a lot of money. according to Dr. Ronald Satz. Dean of Graduate Studies and Research

"The National Science Foundation and other foundations provide several kinds of assistance, Satz said "One kind is a stipend which usually amounts to several thousand dollars for the year. plus most often there is a remission of tuition so the student does not have to pay tuition charged by the in

The deadline for fellowship applications usually runs from Fall Quarter through Winter Quarter and the awards are made in the early spring according to Satz

"This office maintains hulletin board outside Room 327 where we post National Scrence Foundation and other kinds of fellowship possibilities Dr Jones and Dr. Hutson have in the past made information available on Danforth and Fulbright and

things of this nature," Satz said

To apply for a fellowship the student must meet several qualifications

The applications require letters of recommendation from professors they've

studied under and transcripts usually have to be provided We're looking for a person who has a good academic average, a student who is canable student and we have career goal," Satz said

A student can apply for more than one fellowship, but usually if he gets both, he must relinquish one

"Let's say you're awarded a National Science Foundation fellowship and another fellowship At that point in time, should you be fortunate enough to get hoth, you'd probably have to decide which one would be in your best interests to maintain it arranged depends on the requirements to have in mind a fairly clear of the specific fellowship.

PACER INSIGHT

Open the Weightroom

"academic weightroom" should be opened to certain students who are serious about weightiifting so that the greatest benefit could be gleaned from this facility, which is the only place on campus that the serious weightlifter can reap all the benefits that should be available to him on a college campus

The P E Complex boasts two weightrooms the 24-hour weightroom which, as the name implies, stays open 24 hours a day and the socalled "academic weightroom" The academic weightroom is presently used only by athletes and classes in weight training, but The Pacer feels that this use should be expanded

Expanded to include whom?

Expanded to include students who are serious enough about weightlifting to form a weightlifting club.

Certain students have expressed interest in this direction and the club they would form would be self-policing so that no destruction of University property would oc

They would sign in before their workouts and sign out when they left and since Recreational Sports can now afford it, there would be a supervisor on duty whenever the club met to use the facilities

In certain quarters, mistrust has been expressed against students using this "academic other's toes weightroom". Fears of property destruction minds of certain higher-ups who insist these specialized facilities should be used only for

The trouble with this theory is that some students can't get the thorough weight training they want at the tiny, one horse, 24-hour weightroom And with a supervisor on duty, the higher-ups need not fear the imaginary destruction wrought by a self-policing club

Concern has been expressed that the students using the weightroom would venture to use the Human Performance Laboratory for their training, but The Pacer has found that this laboratory is separate from the weightroom and can not be used by a weightlifting club.

The student activity fee you pay goes to a wide variety of departments, among them Recreational Sports It seems unfair, does it not, for students to be denied that for which they've paid If the administration would lower tuition fees, perhaps all those terrible weightlifters would agree to stay away from the hallowed grounds of the "academic weightroom" but until then The Pacer feels that students should be allowed proper use of campus facilities

So, on the one hand, you have the rights of students to the proper use of their University's facilities, and on the other you have a few people in positions of authority, though not by any means all campus officials, who apparently wish to exercise authority for its own sake, even when they must tread on

A meeting is to be held to determine the and rampant students apparently haunt the proper use of the "academic weightroom". Let us hope that the problem is intelligently

'How does it fit?'

Sales Clerks

by Marcia Pitts

One of the most horrible and distreasing experiences of going back to school is the act of buying a fall wardrobe. Maybe I'm not the "run-of-the-mill" female, but I admlt it with no apology. I find no pleasure in dressing, undressing, trying on, trying out, taking home, and bringing back an assortment of clothing.

Below is a rendition of one of my typical days at the store. And though I'm not a typical female, the sales clerks I've encountered are pretty much carbon copies of each other. Shoe sales clerk: "No, we

don't have a size 7Can you wear a 84. Yes, we have a 7 medium....This rack is half price plus a dollar....No, that shoe is not on sale though \$42 is a bargain price....That's a popular shoe; we've sold a lot of them....An 8 too big?....We have an 8 narrow....Yes, hon, but everyone is wearing them... Mr. Morrisson them.... Mr. Morrisson
Quick! Bring some Kleenex; this lady with the spikes has developed a nose bleed!...Anything else?...No problem-come anytime. We enjoy having our shoes tried

Lingerie clerk: "I think the bra is supposed to fit that way....Well I didn't mean that it was your fault that the cup was out of shape tight?...Are you sure? (Margaret get the oxygen mask.)....This creation is especially designed to lift you up and jut you forward....This is the best paddlng we have....Doesn't fit?...What slze did you say you wear?...The elastlc is dryer

safe Yes, this is our finest

cotton.... Well I wouldn't think they would fade!...Size 5! ...Are you sure you don't need a larger size?...We've got pink petunia, mimosa yellow, apricot, and eucumber green....The difference between snowy fluff and plain white?...Ninety-seven cents
.... That's all right. Hope you
find what you're looking for. I'll just put all these back in their boxes; some people do buy them you know."

Blouse and top clerk: "You didn't need a large; a medium would have fit just as well....I suppose you could clip the seam and iron that pucker out....l really don't know why they look like that , but we're selling a lot of them....Well I guess the button wasn't sewed on tightly enough....Did you see this?...Yes , all those that sold for \$15.97 now sell for \$10.97, and those that sold sold for \$13.97 sell for \$9.97....No dear, the \$18.97 ones are not for sale....I can't imagine why the navy sweater is sewed in yellow, but here's a red one!...Here's...oh, I'm sorry, I didn't know you'd already tried this one on —you didn't like it?...How does It fit?...You can't get It on?...It does have a zipper you know....No, no. no, we won't cut your hair!...A girl the other day got her hair caught in the same zip-per....I'm sorry we couldn't help you....Are you sure we couldn't interest you with something else--a wig maybe?"
Pants clerk: "Size 9-10 too

tight?...Sorry, we don't have an 11-12. How about a 13?...This is the new color we're selling a lot of What do you mean you're glad they don't fit?...Jeans?...Yes, but they're made that way so you can hem them yourself....Too big?...Too tight?...No, they don't make you look fat. They look good Dress pants?...Well you can put a new zlpper in them....I'm sorry; do you have something against zippers?...No, I'm sorry, I can't give you a discount....I can't find the belt to this pair, such a procedure. Well, but you can buy ... a normally I would be against separate....Here's an 11-12 orange accomplish a goal . But since duroy!...Well if you like those the Beatles' reunion carries that well, get them-you can with it the ultimate salvation pick up a belt anywhere you of the human race, I believe know....No, I'm sorry, we an exception would be don't give discounts tolerable. ever Well, I'm sure of the someone will buy them-some mechanics involved, I'm sure women don't wear belts!...Too that you agree with the main high?...Oh, TOO HIGH. But thrust of this article. The \$36.98 is a reasonable price to Bestles must be reunited. If pay for name-brand pantyou have any better s....Anything else besides suggestions on just how this these jogging shorts-need a T-can be brought about, please shirt ?...Oh, well, you'll find

Fellowship opportunities

There are many activities presently available to UTM students that have the potential of providing a select group of students with unique educational opportunities

One such activity is the legislative internship program which is offered through the political science department at UT Martin. By actually having the chance to participate in the state legislative process, students would be receiving valuable insight into the political structure that might elude them otherwise. Political science majors, and any other students who have an interest in this field are encouraged to participate in this program.

Another auch activity available to graduates of UTM is the research program offered through the University of Hawaii. Those fellowships include travel expenses, housing, a monthly stipend, and tuition. The areas of

research include patterns of communication, culture, conflict, and population studies Graduates of UT Martin who are seeking master's and doctoral degrees are encouraged

to check into these fellowhips Other graduate fellowships available to UTM

students include the Danforth Fellowships and the National Science Foundation fellowships. Both of these fellowship programs are highly distinctive and would be well worth checking Fellowships such as these afford the student an opportunity to gain valuable academic and practical experience which will be of unparalleled value as their career

Another aspect of student participation in programs such as those described above is that the school also serves to benefit the UTM student engagement in the programs.

Whenever a student from this University is given a fellowship or internship, the reputation of this institution is boosted that much further in the academic circles. Students receiving such special opportunities should realize their responsibility not only to themselves, but also to their respective institutions as well.

Above all, it is imperative that the student body at UTM be active in the programs which are available for their own benefit. To allow such opportunities to go by without inquiry is to do a gross injustice not only to ourselves, but to the future of our nation as a whole. We are the future and it's high time we acted like it.

'Make the Beatles a reality'

In case you haven't noticed, the world is in sad shape. Look about yourself. Everywhere there is famine, disease, overcrowding and war. The economy is at its worst point in the last thirty years and people just don't seem to care for one another like they used to. How much longer can we expect to continue in our present condition? Something simply has to be done before it's too late. But what? What could possibly restore happiness, prosperity, and a sense of meaning to the many nations of the world?

In essence, there is but one singular event which could serve to eradicate the troubled times in which we live. Yes, you've guessed it. The Beatles be reunited for the benefit of all mankind. There is no other alternative if modern man is to continue to live in a manner which lends Book Review itself to civilization and culture. Without the Beatles again taking an active part in adventure Kyd for Hlre was the leadership of world af- published, it was hailed as a fairs, existence as we know it will soon be only a pleasant memory. Peace on earth is Author only a concert away!

The whole purpose of this column is to ask your assistance in my endeavor to detective as bitingly conreunite the Beatles and thus restore law and order to our again. No more hunger, greed or sleepless nights. With the Beatles reunited, there will be Bye, piness throughout the entire brotherhood of man. You may say that I'm a dreamer, but believe me. I'm not the only one. With your help, I truly

Just what can be done to accomplish this seemingly Impossible task? During the past few years, several attempts have been made to bring the Beatles--John, Paul, George, and Ringoback together again. And up until now, all of these attempts have been unsuccessful. Well. it's obvious to me that the only way we're ever going to see the Beatles perform together again is by force. So that's exactly the approach that should be taken. Let's force

Beatles to perform together or else. Remind them that unless get the Beatles together again civilization will grind to a screeching halt. What should be done if the

Beatles still refuse to go along with common sense, not to mention the law, and absolutely refuse to work with one another? In this case, brainwashing would be the only solution. We could convince them that they never broke up and that they still the Beatles into performing enjoy performing together Write your very much. GoodNight and Good-Bye is a finely crafted mystery, rich in colorful characters and believe that we can make the sharp glimpses into the sordid

When Thomas Kyd's debut Hollywood.

lt all begins for Kyd the first time he sees Laura Cassidy. It four o'clock in the morning, and she is trying to drive a fire-engine-red Volkswagen out of an underground garage and up the hill toward Sunset Boulevard. What catches Kyd's eye is the hood ornament -- a middleaged, overweight, stark naked man, spread-eagled on the hood of the car and looking mad enough to bite through the windshield.

At first, Kyd views his encounter with Laura Cassidy as a strictly private problem. After all, she has the kind of face you don't want anything to happen to, no matter what she's done. But Kyd's lmpulsive attempt to get Laura out of trouble promptly gets hlm into lt. His private problem becomes professional disaster when Laura's arrogant celebrity, screenwriter fiance is murderedand Kyd is hired to track down the valuable movie script that has vanished with the murderer.

Inevitably the trail leads back to Laura-but first Kyd must tangle with the murdered man's cynical ghostwriter and his passionately protective wife; a mysterious Vietnam veteran whose mind ls programmed to be a weapon of war; the no-nonsense L.A. Police Department: and a ruthless underworld mob that can't keep him off the track.

Timothy Harris moves his tightly plotted mystery to its climax against a Hollywood landscape of dreamers and

Congress elections upcoming

SGA Dateline

October is proving to be a very busy month so far for SGA with many student activities coming up. Congressional elections will

be held next Tuesday October 9 In the dorms and in the University Center from 8 a.m.-5p.m. Senior Class President ejections will also be held at the same time. All petitions are due in to the SGA

office today (Thursday) by 5 p.m. The response to the races has been great so far this year, so everyone get out, vote, and show your

aupport.

SGA-Undergraduate Life Leadership retreat is still scheduled for the weekend of October 13 and 14. You are atrongly urged to represent your group or organization on

this most rewarding and worthwhile weekend. Tina Hall, Secretary of Affairs, has all the information, so feel free to come by the office.

The Homecoming Concert for this year has been announced. Pablo Cruise will appear with special guest at Fleldhouse Sunday. October 14, at 8 p.m. Publicity

by David Griggs has already started in the

local media, but tickets will not go on sale until next week

Homecoming Week activities are shaping up quickly most of the committees are finalizing their plans. A more detailed list of activities will follow next week.

UNIVERSITY FORUM

Philosophy from disease

I'm a victim of a disease the afflications of which reach far back into my childhood, bringing back vivid recollections of sleepless nights and sluggish days spent watching the other kids trying to kill each other in bouts which were supposed to have been mock combat. This disease has no known cure. The victim can go for months leading a healthy, normal life and then, suddenly ZAP! He's down and out with a cold

The common cold, of which I am at present full of, makes a feller feel uncommonly bad. Even now, as I pen this treatise, I have to stop every few minutes to wipe my nose, to the accompaniment of atraining paining sinuses.

For the past several days my sinuses and throat have caused me grief, but, due to a feller known as Otis, the real agony hit last night.

Otis is a dog whose blood consists of black Lab mingled with something else. What is this something else is must be forever consigned to the realm of conjecture, for poor Otis is a stray, albelt a good friend he is a stout odor, a stench that maketh the nostrils to sting and the mind to cringe.

By the way, gentle reader, knew ve that 'dogs are not allowed in the P.E. Complex? Tis sad, but true, for last year myself,, a buddy, and .Otis were forced to flee the P.E. Complex due to the wrath of they who have dominion over the place.

But I digress. Anyhow, after Otis had perpetrated his foul odor upon my olfactory racilities, I began to be in-creasingly disturbed by my highly sensitive sinuses and all my symptons conspired against me, finally culminating in this horror of horrors, The Bad Cold.

I don't know about yours, but my Bad Cold does me a terrible injustice. It makes my nose all swollen and red and causes It to expell all manner of unmentionable things. It makes my head hurt, and the taste of food loses some of it's flavor and, yes, even the wholesome black dirt known as Copenhagen loses some of its twinge. , What a funny world we live

in! A man can take a rag from his pocket and blow bis nose upon it and put It back in his pocket without attracting. more than a casual glance. But let the same man take a small can of dirt and put a pinch in his mouth and some people are likely to assume he'a a social degenerate!

to the knowledge of how the mind understands a given problem it is necessary to digress, is it not? If not, it is at least fun.

And now that you're tbroughly confused, gentle reader, you may ask what is the problem which I unthe problem which I un-dertake to belp you un-derstand? Is this column merely the mad wanderings of a brain enfeebled by disease and put into print? Or worse. could it be that this piece is a replica of some of the philosophical rantings of our esteemed editor, Aaron Hughey?
Nay, nay, the answer lies in

none of the aforementioned. For while my brain maly be somewhat blunted by the cold, it is certainly not enfeebled by lt, and though it may not appear so at first glance, my philosophy is sounder than Mr. Hughey's has ever been. To the reader who has persevered thus far in at-

point I'm trying to make comes the fruits of reward, and thus of self-knowledge.

"Self-knowledge! Is all this philosophical bogwash meant to help me know myself? How could this be?" you exclaim.
The answer is simple,

though I'm taking a deucedly long time in revealing it. To know thyself you must first be attentive to little details. details that usually escape the attention of the average man, such as how many hairs are in your nose, or how does your brain go about solving a particularly difficult personal problem, or how do you feel when you have a Big Bad Cold, or does this column really offend you and, if so, why? Search for the deeper, hidden workings of your mind while taking care not to avoid those that lie on the sur-

Be not afraid of what lies within you but examine your behaviorial patterns, whatever you want to call them with all the care and attention to detail you would give a fetal pig in a biology lab. If you like not what you find, endeavor to barness your demons, try to change your behaviorial patterns. Make your life an unerring pursuit of truth, and the truth you must be chiefly concerned with is the truth about yourself. Who you is and what you is and what you should be and your place in the universe. "Ye shall know the truth and truth shall make you free." Read the Good Book.

Gentie reader, if you've Pardon my many gleaned no good from this digressions. But to come fully column, you need to work on

Soap-operaholism

Addictions

My therapist told me one of the first steps toward beating my problem would be to admit the problem does exist. So, here goes....Yes, I am a soapoperaholic.

Like every other soapoperaholic, I never intended for this to become an addiction. When I first began watching soaps, it was no big deal. When a few friends would come over in the afternoon, someone would casually mention, "Is there anyone here who would mind if I turned ya'll onto some soap-operas?" (We learned to ask after once being turned-in for it.) Usually no one would object, you know how peer-pressure can be, and so it went on and on. But let me tell you, a couple of soaps in the af-ternoon can lead to a mass soap-watching addiction which may cause you to watch TV from 10 in the morning until 4 in the afternoon.

Here are a few signs to look for to determine if you may have a soap-opera habit...Do you find yourself rescheduling class so you won't miss General Hospital?...Do you break your mother's arm for turning the channel just

by Cheryl Averett before Monica tells Alan about Rick?...Or do you find yourself mixing the soap-opera world into your everyday conversation-like the other night during a dinnertime conversation, I casually mentioned, "Dad, did you know Della had a selfinduced miscarriage today?' My dad, ever aware of the problems I'm having, turned with a look of rage on his face and asked my mother, "Why do you let her run around with ople like that?"

your so-salled abstract feelings. I think. I'm not without fault and it could be that I've messed up your mind through my seemingly unusual analogies, though I rather imagine that this column makes more sense than most of the cute little axioms men are ruled by.

particular:

'Meatballs' is meaty fare devious, but imaginative pranks and scantily clad giris. My evil friend Grump As with the Animal House

warned me about the movie ahead of time. "You've seen 'with Bill Murray's devious, but imaginative pranks. It's nothing but a cheap rip-off of Animal House toned down for a PG audience. Why bother seeing it? You could review it

"It's a good thing I didn't listen to Grump. He was dead wrong.'

There are elements of his accusation that are valid, to be sure but Meatballs is an oddly, schizophrenic film.

Meathalls was written by a committee of four and it shows. One of the writers seemed to have just such an ldea in mind. Besides starring a member of Saturday Night it is Indeed filled with mean.

film, we find a conflict between the plastic, filthy rich. vile, conforming, morally bankrupt youth of America at Camp Mohawk (or at the Omega house) and the assed freaks at Camp Nor-

thstar (or at the Delta House.) Another writer seemed to think this was a kiddle adfilled with drooling, snapping, laughing, and surprisingly cute children. At this point Grump nudged my arm and said, "Look at that! They think kids are human beings!" To support this approach to the film dubbed in a somebody sound track consisting of sickening camp songs sung by

?(all off key). Since the film was about a summer camp I suppose the kids were an integral part of the setting, but I wish somebody bad taken a scalpel to the soundtrack or at the very least the sound

Yet, through all of this, a ouple of the writers seemed to have a different idea about the film. They thought it should contain a sensitive well thought out story about some people. First off, there is a growing attraction of love and respect between Murray's character Tripper and another counselor played by Katie Lynch. There are a few scenes spent in developing this relationship, yet the ones that are, are sensitive and poignant. Also there is a

Rodeo team places looking forward to season

By BILL ROGERS EDITORIAL PAGE

The University of Tennessee at Martin's Rodeo team recently placed fifth teamwise in their first regional rodeo of the season, according to Joel Schultz, public relations chairman for the Rodeo Club.

The rodeo was held September 7, 8, and 9 at the University of Missouri at Columbia with nine teams competing, Schultz aaid.

"We placed fifth in men's women'a and team competition," Schultz said.

The Rodeo team expects to have a good season this year, according to Schultz.

The UTM Rodeo team is a member of the Ozark Region of the National Intercollegiate Rodeo Association

and has to team competitors, 14 men and 2 women, Schultz

Meek Library improving quality as well as quantity

Editor's note: This is the tion bas increased over two second part of a two-part

By PAMELA ALLEN Features Editor

The Paul Meek Library is one of the most rapidiy changing facets on the UTM campus The staff, directed by Joel Stowers, carries out many separate and important duties that keep the library up-to-date and as complete as

Since 1970, when the library had 82,000 books, the coilec-

HERE'S TO VICTORY

and one half times, to the 207,000 books there are today Stacks are even being added to increase space for shelving books

'We are attempting to improve quality, as well as quantity, in the resources quantity, in the resou offered," Stowers stated. "We now have one of the

fineat inbraries and rank second only to Memphis State in university libraries in West Tennessee," he con-

The collection development division is responsible determining exactly what the Paul Meek Library needs. The staff apends much of its time checking card catalogs and reading the many book reviews that come in daily.

Since 1975, the library has been aided by a computer terminal that has readouts on available material from other libraries. It also has in-

formation on the status of UTM card catalog and much Library has had to endure the cutbacks with which other departments have had to contend The financial allocations have remained the same for the last three years. in splte of inflation.

"The price of books, par-ticularly hardback books, has increased dramatically in the last several years. Therefore. we are purchasing many more paperbacks and sending them to the bindery to be bound in hard covers. We have saved much money by doing this," Stowers expiained.

The library is actually divided into two parts: the faculty-requested budget and the general book fund budget.

The facuity-requested budget provides the money to buy academic books, ones that professors feel will aid both students and themselves in the compliation of research.

The general book fund budget is the library's own responsibility; the staff and director choose books that will fill the gaps in the library's collection.

It is interesting to note that the fines pald by students do not return automatically to the Paul Meek Library. All money goes into a general fund which provides money for the entire University.

However, the rate of fines is set by the library, although it has remained unchanged in seven years. No increase in fines is planned for the near

"Our policy of fining is not a deterrent to the problem of students keeping books past the due date," Stowers said. "If the student needs or wants the book later than the due date, he will simply keep it and then pay the fine."

There is also a suggestion box located at the circulation desk. Students or other persons using the library can request book titles or com-plain or commend some aspect of the library's operation.

"All students are welcome to comment on the performance of the library. This helps us keep in tune with the students," Stowers stated.

The Paul Meek Library truly belongs to the students of UTM, and they can consider it a friendly place to pursue knowledge.

To Rush or Not to Rush

Fraternity rushes have been in full swing this week. Here Pike Tim Gardner shows rushee Bili Bally the "Dream Girl" Miriam Gunter fooks on.

Ballet classes at new Martin studio

By NIKKI DILL Student Wrlter

The Martin Dance Studio has given the Greenfield High School gymnasium floor a new home.

A fioor that was once pounded by sneakers is now danced by ballet siippers.

Each of the some 3000 boards, nails intact, was pulied by hand from the gym and transferred to the new studio at 406 Lindell.

Carted by the arm-ioad up the 25 steps to the studio, each board was handled eight times by the time it was nailed into place. In place, sanded and seaied,

the floor provides , Martin residents a place and a chance to learn classical bailet

Alisan Peters and Cor-nelia Seifert, both wcii-trained in classical bailet, teach in the studio.

"We want to concentrate on bailet, rather than trying to do a little of this and a little of that," says Mrs. Seifert.

Students may begin as young as three years of age. Classes are offered at levels of experience, including specially designed classes for beginning adults.

"We teach a variety of dances at all levels, using music ranging from classical to contemporary," Mrs. Seifert says. Our costumes are simple.

We concentrate on the movement of the body and strive to wear costumes which allow freedom of movement," she continues.

becoming accepted as a part of the community. According to Mrs. Seifert, brevity of the costumes has caused acceptance to be slowed, parreligious community.

"We feel we are offering people the opportunity to learn an art form. The costume is simply a part of the art. Moving into the downtown area has helped us to become more accepted, though, "says

Mrs. Seifert. Perhaps some day the art being performed on a new dance floor wili be as popular in Northwest Tennessee as the sport once played on an old gymnasium floor

Vanguard

presents

'Vanities'
